

# HyFlex®

ADVANCED MECHANICAL PROTECTION

## 11-531

Palm-Dipped Light Duty Gloves with INTERCEPT TECHNOLOGY® and ANSELL GRIP™ Technology

Cut

Light Duty

## Exceptional grip performance and in a comfortable ultralight weight cut resistant glove

- The 11-531 optimizes the convergence of protection and performance. It features an 18G ultralight weight liner with INTERCEPT TECHNOLOGY® yarns that provides ANSI Level 2 performance
- The liner also features ZONZ™ Comfort Fit Technology for breathability and ergonomic movement. The palm dipped coating and the FORTIX™ Technology formulation provide enhanced abrasion resistance and grip
- To provide all four advanced performance technologies, including ANSI Level 2 cut performance, in a comfortable, flexible ultralight weight style, is a game changer for applications where workers have traditionally guarded against cut risks with heavier styles that limit their dexterity and breathability

### Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

### Applications

- Handling metal sheets & panels
- Handling parts with sharp, rough edges
- Final assembly
- Handling materials with sharp or rough edges
- Assembly & inspection of components
- Applying finish to materials, products

### Key Features

- Ultralight weight glove that offers unparalleled dexterity and refined mobility
- ZONZ knitting technology uses selected yarns and varying stitch designs to tailor overall glove fit to enhance hand movement for higher dexterity and reduced fatigue
- Silicone free design is paint and finish process friendly
- Dirt masking palm for longer wear times
- Also available in vend pack
